Seats reserved for Karnataka Students in Private Medical Colleges

517 SMT. VIJAYA RAGHAVENDRA RAO (Chittapur) —Will the Minister for Health be pleased to State :—

(a) whether the Government have earmarked cartain percentage of seats in Private Medical Colleges in the State ;

(b) if so, the number of seats earmarked in each of the Private Medical Colleges in July, 1975?

SRI H. SIDDAVEERAPPA (Minister for Health):—

(a) Specified percentage of seats in each of the Private Medical Colleges in the State are reserved for students from Karnataka on payment of capitation fee of Rs. 10,000 each excepting in the case of St. John's Medical College, where 25 per cent of the seats are reserved for students from Karnataka State without payment of any capitation fee.

(b)—

Name of the College		*No. of seats reserved for Karnataka Students*
1. J. N. Medical College, Belgaum	...	30
2. Kasturba Medical College, Manipal/Mangalore.	...	33
3 M. R. Medical College, Gulbarga	...	19
4. JJM Medical College, Davangere.	...	19
5. St. Jhon's Medical College, Bangalore	...	15

SMT. C. NAGAMMA KESHAVAMURTHY.—Suplementary to (b): It is stated in the reply that 10% of seats are reserved for the members of the institution. Is it for the staff or the management ? I would also like to know when was P.P.C. abolished. Then it is stated that 10% is reserved for the management, 45% for outsiders 45% for State students. Is the reservation for the S Cs. and S.Ts. included in the 45% reservation for Karnataka State students ?

† SRI SUBHAS ASTURE —This 10% is for the members of the society. Whether they give it to the staff or to the society members is not clear. Secondly, P.P.C. was abolished in our State in 1974. Till then the P.P.C. course was one year course and after its abolision there is only two-year course now. As far as percentage is concerned, after deducting 10% for the society members, some seats are reserved for the students who come from P.P.C. Out of the remaining seats, 50% is given to the students of Karnataka and 50% to outsiders i.e. those who come outside the Kartataka State.

SMT. C NAGAMMA KESHAVAMURTHY.—I want to know whether this reservation for Scheduled Castes, Scheduled Tribes and other Backward classes is included in the 50 per cent reserved for the State's students?

SRI SUBASH ASTHURE.—Among the 50 per cent reserved for the State Students the allocation is as follows.

Scheduled Caste	...	15%
Scheduled Tribe	...	3%
Backward class s	...	3%
Socially and educationally backward classes	...	28%
General	...	15%

SMT. C. NAGAMMA KESHAVAMURTHY.— Except in St. John's College all other medical colleges are collecting capitation fees. Is it because they get any financial assistance from Government?

SRI SUBASH ASTHURE.—If private medical colleges run on their own record we are not giving any financial assistance. Whatever fees they collect they spend on maintenance of the institution. As far as St. John's College is concerned if they are not collecting capitation fees probably they might be getting finances from some other sources.

SMT. VIJAYA DESAI.— Will the Government consider to yearmark certain amount to give assistance to this College during the next academic year?

SRI SUBASH ASTHURE.— Previously the practice was that 25 per cent of the seats were reserved and Government was allotting these seats on merit but now since there are a number of Government medical colleges and in private medical colleges there are no seats reserved for Government allotment. Even those seats are allotted on merit and they charge Rs. 1, 000 as capitation fees.
